Dear Mr. Read:

The attached application for patent term extension of U.S. Patent No. 5,360,897 was filed on April 14, 2000, under 35 U.S.C. § 156.

The assistance of your Office is requested in confirming that the product identified in the application, Prevnair™ (Diphtheria CRM<sub>197</sub> protein), has been subject to a regulatory review period within the meaning of 35 U.S.C. § 156(g) before its first commercial marketing or use and that the application for patent term extension was filed within the sixty-day period after the product was approved. Since a determination has not been made whether the patent in question claims a product, or the method of use of manufacturing such a product, which has been subject to the Federal Food, Drug and Cosmetic Act, this communication is NOT to be considered as notice which may be made in the future pursuant to 35 U.S.C. § 156(d)(2)(A).

Our review of the application to date indicates that the subject patent would be eligible for extension of the patent term under 35 U.S.C. § 156.
